

WORLD RELIGIONS IN LONDON

March 2-9, 2024

If you enroll in the London Section of World Religions in Spring 2024, you can join Dr. Huey for a field trip in London, England! It will be an immersive, unforgettable week of intercultural encounter.

Why London?

There are many cities (like Detroit) that have diverse religious communities. Nobody, however, can match the sights, sounds, music, and foods that London provides.

- London is blessed with amazing cultural diversity, in every corner of the city.
- As the historic capital of the British Empire, London is connected with nations all over the world.
- London has some of the world's best museums, with some of the world's most extraordinary religious artifacts.
- London is fun, fast-paced, iconic, and exciting. We will see more than temples and shrines. And they speak English!

How much will it cost?

We're working on this, but the numbers aren't solid yet. The goal, at this point, is to stay below \$2500. We will keep you informed, as we try to bring that number down.

Here are the items that will be included, when the budget is complete:

- Airfare from Detroit
- Lodging in London
- Transportation in London
- Group dinners (at least five of these)
- Site admissions
- Sponsor and administrative costs

What should I do now?

There are three things to do right now (in no particular order):

- Talk with Dr. Huey to get more details (and to communicate your interest). Visit his office in the Muirhead Center, #125, or email him at khuey@rochesteru.edu.
- Talk with your academic advisor to see how this class might affect your degree plan.
- Talk with friends, and encourage them to join you.

We will have a limit of 12 students for this trip. Make plans now to secure your own spot!

The GEO program exists to provide academic experiences of diversity and difference outside of Southeast Michigan.
